

Logging on to the Server

You now have a user name and password for logon purposes. Please do not hit cancel anymore. Type in your user name and password. The password will not appear when you type it in. I've just included it below so you'll know what it is. Please put this in a safe place such as a folder. **DO NOT** put it near your computer or tape it to your computer.

Enter Network Password

Enter your network password for Microsoft Networking.

User name: aycockp

Password: coteunc

Domain: Blackland
