October 12, 2009

Dear Parents and Guardians,

On October 7th, a bat was found under the bus canopy. The bat was removed by maintenance personnel and was picked up by animal control.

The bat was examined by the Texas Department of State Health Services. Canyon Vista was informed Oct. 12 that the bat was found to be **POSITIVE for RABIES**.

As a part of our campus procedures, our teachers and staff were informed and asked to remind our students, as always, to stay away from any bats on the ground or in a “reachable” location. We shall continue to air reminders on CVTV throughout the year. Please assist us in this effort by continuing the conversation at home.

Please do not hesitate to contact me if you have any questions. You may also contact the Department of State Health Services at the numbers below.

Sincerely,

Barbara Paris, Principal.
