

Positive Behavior Support

Deep Wood PBS Team

Deep Wood is participating in the RRISD PBS initiative beginning this year. Positive Behavior Support (PBS) is a team based process for creating proactive support systems within the school setting to structure and organize all school settings. We will clarify expectations for student behavior across grade levels, teach behavior expectations to all students, and interact positively with students at all times. As needed we will correct behavior calmly and consistently, as well as recognizing and praising students for appropriate behavior.

We will be teaching the three B's this year in connection with our character education program.

- Be Safe
- Be Responsible
- Be Respectful
