

# Caraway Math Pentathlon

The Math Pentathlon is a program of interactive problem-solving games. This motivational program strengthens basic math concepts and skills and stimulates creative thinking while developing problem-solving skills. A critical feature of the program is the linkage of arithmetic reasoning with geometric/spatial and logical/scientific thinking. These strategic games develop active problem solving. And, it's FUN!

For information about the Math Pentathlon: <http://www.mathpentath.org/>
