

Stony Point High School

Stony Point opened as Round Rock ISDs fourth high school in the fall of 1999. Modern facilities support the instructional programs in the Career and Technical Department. Courses within the department support training needs identified by local industries. Teachers engage in continuous professional development that enables them to remain current with changes that impact their designated fields.

The Information Technology Academy

Stony Point High School

2008-2009

The Information Technology Academy

The RRISD community has experienced rapid population growth and change in business because of the variety of employment opportunities in Technology.

A transition from a manufacturing-based economy to an information-based economy assures future employment for our students in the IT industry. The RRISD Information Technology Academy will provide opportunities for our students to take advantage of exciting career paths in the Technology industry at both the local and national level.

Advanced academy students are offered a variety of courses such as:

- Introduction to Graphic Communications Careers
- Business Image Management and Multimedia
- Computer Multimedia and Animation Technology
- Desktop Design
- Introduction to Electronics
- Networking Essentials
- Computer Science I
- AP Computer Science II
- Telecommunications and Networking (Internet Comm & Web Design)
- Web Mastering

Academy Studies

The Information Technology Academy has five current areas of specialized studies.

These areas are:

- **Digital Media**
- **Network Design and Administration**
- **Technology Support**
- **Programming/Software Engineering**
- **Web Development and Administration**

These academic specialization areas have specific recommended classes for each grade level. In addition, regular and advanced core subject classes are provided.

All freshman academy students begin their course of study by taking **Introduction to Information Technology** or **Introduction to Graphic Communications Careers**.

An Academy Student will have the opportunity to receive certifications such as:

- **MOS Certification**
- **A+ Certification**
- **Net+ Certification**
- **I-Net+ Certification**
- **IC3 Certification**
